

LEARN HOW THE VECTOR CONTROL PROGRAM PROTECTS YOUR HEALTH

WE INVITE YOU TO JOIN US

For one of several virtual informational meetings to learn about how the Vector Control Program protects San Diego County residents from vectors (animals such as mosquitoes that can spread diseases to people) using integrated vector management, as well as about an upcoming review of an enhanced version of our program (Program Environmental Impact Report) to ensure our efforts remain environmentally friendly.

Below are the Zoom links for each meeting – click the link at the start of the meeting to join.

DATE	TIME	ZOOM LINK
November 2, 2022	10:00-11:00 am	https://us06web.zoom.us/j/86876175778
November 2, 2022	6:00-7:00 pm	https://us06web.zoom.us/j/82730229451
November 8, 2022	10:00-11:00 am	https://us06web.zoom.us/j/84334786094
November 8, 2022	3:00-4:00 pm	https://us06web.zoom.us/j/89734921727

If you have general questions or would like to request translation services for the meetings in a language other than English, including Spanish, Vietnamese, Chinese (Mandarin), Arabic, Persian (incl. Farsi, Dari), Korean, Somali, or Tagalog (incl. Filipino), please notify us with the date/time of the meeting you will be attending and the language requested no later than October 19, 2022, by emailing ivmp@sdcounty.ca.gov or calling (858) 694-2888.

The presentation will be recorded and provided on the [integrated vector management webpage](#). [Engage San Diego County](#) can also be accessed to learn more about integrated vector management, ask questions, and get updates about the upcoming Program Environmental Impact Report.
