

**CHULA VISTA COMMUNITY COLLABORATIVE
PARTNERS MEETING MINUTES
May 14, 2019**

1. Family Resource Center Program Manager, Alba Callejas, welcomed all organizations and stated the introduction.
2. **Amigas punto com**
Vivian Nieto stated the program's dedication of educating, restoring, and empowering Latinas by helping them develop the necessary skills, tools, and resources to overcome. The goal is to help women and their families who are experiencing painful situations that significantly impact their emotions. For more information, please contact Vivian Nieto at 619-427-0301.
3. **Big Brothers Big Sisters**
Edith Sanchez shared their goal to provide children facing adversity with strong and enduring, professionally supported one-to-one relationships that change their lives for the better. Edith then discussed a new program called 'Bigs with Badges' where BBBS is creating partnerships with local police departments to develop empowering relationships. For more information, please contact Edith Sanchez at ediths@sdbigs.org.
4. **South Bay Community Services CAT**
Erica Coopers, Aida Dominguez, and Michelle Vasquez, discussed the Community Resource Centers and their referral process for the CAT program within SBCS. The CAT Team works to keep kids in school and out of the Juvenile Justice System by providing early intervention to youth and families. The program provides an array of support services for first-time youth offenders, runaways, youth on Probation, and non-offenders and their families as well. For more information please contact Erica Cooper at ecooper@csbcs.org.
5. **Imperial Beach Clinic**
Claudia Gonzalez introduced the mission of promoting a healthy community by providing quality health care and resources, with a focus on the underserved. The IB Clinic fulfills their mission by improving access to primary health care for residents of South Bay, employing skilled professionals committed to providing quality healthcare services and addressing current health needs, serving the community with compassion and respect, and providing a medical home to at-risk populations. For more information, please contact the clinic at info@ibclinic.org.
6. **Computers 2 Kids, San Diego**
Esther Machado shared the goal to establish a philanthropic endeavor that would help to reduce the digital divide between people who have access to technology and those who do not. Computers 2 Kids does so by **collecting, recycling and refurbishing computers** from individuals and now works with many large corporations and effectively takes their old systems and repurposes them by giving them to San Diego families in need. For more information, please contact by phone at 858-200-9788 or email programs @c2sdk.org.
7. **Chula Vista Climate Action Challenge**
Cory Downs introduced the Climate Action Challenge and described how it allows residents to create a profile indicating their carbon baseline. The CAC provides the opportunity for residents to learn about possible sustainable actions they can take and join, or create, groups/teams. Using this, they can engage with their community on leader boards and with messaging. For more information on how to utilize this platform, please contact Cory Downs at cdowns@chulavistaca.gov.
8. Announcements were made by several of the partners present

Fifty-two of people from partner organizations signed in/attended the May CVCC Partners Meeting
CHULA VISTA COMMUNITY COLLABORATIVE
