

**CHULA VISTA COMMUNITY COLLABORATIVE
PARTNERS MEETING MINUTES
September 10, 2019**

1. Service Coordinator, Joe Buselt, welcomed all organizations and stated the introduction.
2. **Re-entry Support and Services Family Health Centers of San Diego**
Antonio Smith discussed supporting clients that were recently released from prison. They are able to assist for up to a year after they have come out and help them prepare for the future. They have a 70% success rate.
<https://www.fhcsd.org/services-and-programs/>
3. **National Partnership to Train CHWs/ Promotores in Patient Centered Outcomes Research**
Azucena Lopez de Nava spoke about the work the Promotores are doing in a national level. Azucena works for the Chula Vista Community Collaborative and will represent them in Washington, DC at a conference. They work on maintaining relationships with the community and other outreach opportunities.
4. **Linking Teens to Care through a Youth Driven Approach- San Ysidro Health**
Sarah Vaughan spoke about their program through San Ysidro Health and their teen clinic. They will be accepting 10-12th graders to participate in the internship in April 2020. Students must live within 5 miles of the site. They are given a small stipend at the end of internship and teens are able to use credit towards school hours. The teen clinic is for youth 12-24 years of age that qualify through family pact to receive services.

5. **Alliance for African Assistance**
Julie Germain spoke about the Alliance for African Assistance. They are able to interpret over 200 languages through the Global Village program and are located in City Heights. They are a resettlement program and assist families in connecting to various services including health insurance and refugee status. <http://alliance-for-africa.org/index.php>
6. **City of Chula Vista Office of Sustainability**
Manuel Medrano presented on measures that the city is working on to make San Diego County sustainable. 30 million tons of food is thrown away every year. Industrial zones are a topic they are currently researching. They are also looking at ways to save food before it becomes a pollutant in the air.
